ORCID ID 0000-0002-4513-2301

EDUCATION

- | | |
|------|--|
| 2021 | Department of Geological Sciences, Jackson School of Geosciences, University of Texas at Austin
Ph.D.
<i>A monitoring and 20th century stalagmite study from a shallow cave in New Mexico: elucidating climate controls on geochemical variability with insight into stalagmite suitability for paleoclimate reconstructions</i> |
| 2016 | Institute for Geophysics, Jackson School of Geosciences, University of Texas at Austin
M.S.
<i>Multidecadal rainfall variability in the South Pacific Convergence Zone using the geochemistry of stalagmites from the Solomon Islands</i> |
| 2014 | University of California, Irvine
B.S. in Earth System Sciences (Honors); Minor in Comparative Literature |
| 2013 | University of California Education Abroad Program (UCEAP)
School of Geosciences, University of Edinburgh, Scotland |

ACADEMIC APPOINTMENTS

- | | |
|----------------|--|
| 2024 – Present | Assistant Professor, Department of Geology, Occidental College |
| 2024 – Present | Research Affiliate, Brown University |
| 2021 – 2023 | Voss Postdoctoral Research Associate & Presidential Postdoctoral Fellow, Department of Earth, Environmental, Planetary Sciences & Institute, Brown for Environment and Society, Brown University |
| 2021 – 2023 | Research Affiliate, Department of Earth, Atmospheric, and Planetary Sciences, Massachusetts Institute of Technology |

RESEARCH INTERESTS

Holocene and Quaternary hydroclimate, abrupt climate change, low-temperature stable isotopes, trace element geochemistry, speleology, karst hydrogeology, carbonate critical zone, climate dynamics, time series analysis

AWARDS & FELLOWSHIPS

2025	Flash Teaching Award for Spring 2025 through the Center for Teaching Excellence (CTE) – Nominated by student
2023	Geological Society of America Karst Division Early Career Award
2022	Brown’s Postdoctoral Excellence Award for Research/Teaching
2021-2023	Voss Postdoctoral Research Associate & Presidential Postdoctoral Fellow
2020-2021	Graduate Student Continuing Fellowship. University of Texas at Austin
2017	Jackson School of Geosciences Independent Study Fellowship. University of Texas at Austin
2014	Outstanding Senior in Earth and Environmental Sciences. University of California at Irvine
2014	Honors in Earth System Sciences, Chancellor’s Award for Excellence in Research, Phi Beta Kappa Honor Society. University of California at Irvine.
2012-2013	Maria Rebecca and Maureen Bellettini Award. UCEAP

GRANTS (>5,000\$)

2025	<p>National Science Foundation’s Paleo Perspectives on Present and Projected Climate call Collaborative Research: <i>RUI: Constraining the Tropical Hydroclimate Response to Periods of Abrupt Climate Change Using Cave Deposits, Cave Monitoring, Climate Model Outputs</i> Oxy Budget (Lead PI): \$313,621 (2025-2028)</p> <p>National Science Foundation’s Paleo Perspectives on Present and Projected Climate call Collaborative Research <i>Investigating the Drivers of Regionally Coherent Meridional Variability Across the Australian and Asian Monsoons Over the Common Era</i> Oxy Budget (Co-PI): \$120,364 (2025-2028)</p> <p>Occidental’s Faculty Led Richter Grant: <i>Assessing how anthropogenic activities are altering water quality in tropical rivers through geochemistry.</i> \$ 18,000 (Sole PI; Summer 2026)</p> <p>Occidental’s Young Initiative with Prof. Amy Holmes-Tagchungdarpa, <i>Indigenous Wellbeing and Soils in the Sikkim Himalayas: Climate and Culture in Global Affairs</i> \$5,000</p>
------	---

Submitted 10/25/2025 through Rolex Explorers Club grant Call, ***Exploring caves in Northwest India***
Sole PI: \$20,000

2021-2022	National Cave and Karst Research Institute Seed Grant, Co-PI: Utilizing Stalagmites from the PhilippineS (USPS): Quantifying and understanding interannual hydroclimate variability in the Philippines through cave monitoring and stalagmite analyses. \$24,991
2021-2023	Voss Postdoctoral Research Associate & Presidential Fellowship \$4,000
2019	National Cave and Karst Research Institute Fellowship for Research \$5,000

GRANTS (<5,000\$)

2025	Occidental's Flash Grant with Prof. Shana Goffredi (Dept. of Biology), <i>Microbial Communities in Philippines Caves</i> \$500 Occidental's Flash Grant with Prof. Amy Holmes-Tagchungdarpa (Dept. of Religious Studies), <i>Soils in the Sikkim Himalayas: A Convergence of Climate and Culture</i> \$500 WINGS Women of Discovery Flag Carrier Grant: <i>Studying the changes in the Indian Summer Monsoon in NW India.</i> Sole PI: \$3,000 Occidental's Faculty Enrichment Grant: <i>How did tropical rainfall respond to periods of past rapid climate change?</i> \$2,500
2022	Kart Records IX Travel Grant, Karst Records Meeting, Innsbruck, Austria \$884
2020	Geological Society of America Graduate Student Research Grant, \$1,375.
2019	Jackson School of Geosciences Match Grant, \$1,000. Patty Daw Memorial Grant, \$752.
2018	Cleveland Grotto Science Fund, \$1,610. DeFord Field Scholarship, \$1,500. Jackson School of Geosciences Match Grant, \$1,000.

- 2017 Graduate Research Grant for Cave and Karst Research, \$2,000.
Jackson School of Geosciences Match Grant, \$1,000.
DeFord Field Scholarship, \$1,500.
Geological Society of America Graduate Student Research Grant, \$1,750.
- 2015 Muehlberger Field Scholarship Off-Campus Summer Research, \$1,500.
ANSTO Grant, 2nd Summer School in Speleothem Sciences, \$1,500.

COURSES AS INSTRUCTOR

Occidental College

GEO105- Earth: Our Environment (Spring 2024; Spring 2025; Fall 2025; Spring 2026);
GEO210- Water in a Changing World (Spring 2024; Fall 2025); GEO297 – Climate in the
Philippines (Spring 2026); GEO380- Environmental Geochemistry (Fall 2024); GEO491- Senior
Seminar (Fall 2024; Fall 2025)

Brown University

Historical Climatology and Global Climate Change (Co-Instructor on Record, Fall 2022);

UNDERGRADUATE RESEARCH STUDENTS

Occidental College

Mira Hart (Oxy '26, *Investigating the hydroclimate response in the Philippines to periods of Rapid Climate Change*; Spring 2024, Fall 2024-Present; Directed Research; **Funded by URC SRAP Spring 2024, URC ASP Research Travel, URC SRP Summer 2025, CCF Fellow**)

Alex Witten (Oxy '26, *Using Machine Learning algorithms to find caves in northwest India*; Spring 2025-Present; Directed Research) – with Dr. Magaret (Maggie) Furtner at the National Cave and Karst Research Institute

Christopher Cronk (Oxy '26, *Investigating Sikkim Soils*; Fall 2025-Present; Directed Research) – Co-Advised with Prof. Amy Holmes-Tagchungdarpa

Solvej Lee (Oxy '26, *Investigating Sikkim Soils*; Fall 2025-Present; Directed Research) – Co-Advised with Prof. Amy Holmes-Tagchungdarpa

Street Senan (Oxy '27, *Reconstructing a paleoclimate record from a speleothem in the Philippines*; Spring 2025-Present; Directed Research; **Funded by URC SRP Summer 2025**)

Jivleen Parmer (Oxy '27, *Writing standard of procedure for drilling instrument, sawing stalagmite samples, and general WICK Lab upkeep*; Fall 2024, Spring – Fall 2025; Funded by **URC SRAP Fall 2024**; Directed Research)

Reyli Ramirez (Oxy '27, *Setting up the Water Isotope Climate and Karst Lab*; Summer 2024; **Funded by URC REAP**)

Mae Stone (Oxy '27, *Delineating watersheds in the Sierra Nevada's to Understand Impact of Wildfire to Water Recharge*; Fall 2024; Directed Research)

Grace Meadows (*Critical Theory Social Justice Major and Geology Minor*; Oxy '25, *Exploring the Relationship Between Karst of the Mojave Desert and the Southern Paiutes*; Summer 2024; **Funded by URC SRP**)
Now: Los Angeles City Council District 1

Brown University (co-supervised with Prof. Dan Ibarra)

Celia Kong-Johson (BA, Geology-Chemistry, Applied Mathematics, 2025)
Honors Thesis Title: Late Holocene hydroclimate variability in the Philippines
Now: Graduate student at UC Berkely

Annabelle Gao (BA, Geology-Chemistry, 23)
Resulted in two publications: See Sekhon et al., 2025; Sekhon et al., In Prep
MSc, Environmental Geoscience, Aix-Marseille University
Now: Graduate student at Boston University

Christina Marsh (BA, Environmental Analytics Program, Pomona College, 2023)
NSF REU summer student at Brown University resulted in publication (See Marsh et al., 2025)
Now: Graduate student at University of Southern California

The University of Texas at Austin (co-supervised with Prof. Jay Banner)

Rachel Wright (BS Geosciences, 2018), **Senior Thesis:** Correlating growth banding in Texas speleothems: Paleoclimate Implications. (MSc, Hydrogeology, UC Davis). Now at State Water Resources Control Board

Kara Posso (BS Geosciences, 2017), **Senior Thesis:** Geochemical and physical response of central Texas cave drip water to changing climate conditions. Now at Zara Environmental Consulting.

CONFERENCE ABSTRACTS

#Talk | ‡Invited Talk | *Poster | ^Student Mentee

2026 **N Sekhon**, ^S Senan, ^MZ Hart, ^C Kong-Johnson, J Yambing, X Du, ^MG Vega, BK Belanger, MCM Geronia, S Jalandoni, CP David, JL Oster, D McGee, DE Ibarra, "Reconstructing Tropical Hydroclimate Variability using Speleothems from the Philippines During Abrupt Climate Events," *Submitted to EGU 2026, Vienna, Austria*

SELECTED INVITED TALKS

Voss Symposium, Institute at Brown for Environment Studies Brown University, Providence, RI	September, 2025
Rocky Mountain Geobiology Symposium Keynote Speaker New Mexico Tech, Socorro, NM	April, 2025
University of Houston: Spring Seminar Series Department of Earth and Atmospheric Sciences	April, 2025
20th Philippine Speleological Society (PSS) National Cave Congress Invited Lecture Via Zoom	November, 2024
Earth Science Women’s Network Start-Up Setup and Negotiations in Academic Position Panel	November, 2024
SoCal Grotto Lecture Series CalTech	May, 2024
Vanderbilt University: <i>Spring Seminar Series</i> Department of Earth and Environmental Sciences	March, 2024
Utrecht University: <i>Spring Seminar Series</i> Department of Earth Sciences (<u>Declined due to Visa Timeline</u>)	February, 2023
University of California, Irvine: <i>Spring Seminar Series</i> Department of Earth System Sciences	February, 2023
Occidental College: <i>Fall Seminar Series</i> Department of Geology	November, 2022
Washington and Lee University: <i>Fall Seminar Series</i> Department of Earth and Environmental Geosciences	November, 2022

James Madison University: <i>Fall Seminar Series</i>	November, 2022
Department of Geology, Geography, and Environmental Studies	
Brown University: <i>Co-Shared Fall Colloquium</i>	September, 2022
Department of Earth, Environmental, and Planetary Sciences	
Cagayan Museum and Historical Research Center Presentation	April, 2022
Tuguegarao City, Philippines	
Brown Alumni Club of Hawaii: <i>Back to Class Technical Event with Prof. Ibarra</i>	March, 2022
Virtual Event	
Department of Geology and Geography	November, 2021
Mount Holyoke College: <i>Fall Seminar Series</i>	
Department of Earth, Environmental and Planetary Sciences, Climate and	November, 2021
Environment Seminar, <i>Brown University</i>	
School of Geosciences, Geosciences Seminar Series	April, 2021
<i>University of Louisiana at Lafayette (Virtual)</i>	
Department of Geology, Palmer Geology Lecture Series	March, 2021
<i>Kent State University (Virtual)</i>	
Environmental Studies Program, Spring Seminar Series	February, 2021
<i>University of Portland (Virtual)</i>	
Department of Geological Sciences, Water, Climate, and	November, 2018
Environment Seminar, <i>University of Texas at Austin</i>	

SERVICE

College-wide Service at Occidental College

International Program Office Committee	AY/2024-Present
First Year Advisor	AY/2024-Present
Guest Lecture in Prof. Darren Larsen's <i>Earth's Climate: Past and Future</i> (GEO245) class through CTE's Guest Faculty Program	Nov 2025
Guest Lecture in Prof. Amy Holmes-Tagchungdarpa's <i>How to Live in the Midst of Dying - Religion and Climate Change</i> (RELS120) class through CTE's Guest Faculty Program	Jan 2025
Guest Lecture in Prof. Malek Moazzam-Doulat's <i>Climate, Refugees and Global Authoritarianism</i> (CTS108) class	Jan 2025
Panel member on 'The Causes and Consequences of the LA fires' – Choi Auditorium	Jan 2025
Panel member for the Nepal Film Festival's Climate Change night – Fowler 302	Apr 2025
Participant in URC's Student Research Assistant Program Lightning Talk with Mira Hart - Mosher 1	Apr 2025
Panel member for Board of Trustees June Retreat	Jun 2025
Oxy Melt Summer Volunteer	Jun-July 2025
Data Science Ad-Hoc Committee	Fall/2024

Departmental

Member of Geology Department TOP Search Committee	Spring 2024
Member of Geology Department NTT Search Committee	Fall 2024, Fall 2025
Senior Comps Reader for Shayne Klisura (Spring 2024), Avya Sloo (Spring 2025)	
HHMI Day Long workshop on DEI initiatives for students in Geology	Summer 2024
T3 Position Request	Fall 2024
Geology Department Self-Study Report	Spring-Fall 2025
Updating Occidental Geology Website	Spring 2026

Service to the Profession

Peer Review

Geochemistry, Geophysics, Geosystems, Frontiers in Earth Sciences, Science, Geophysical Research Letters, Journal of Hydrology, Geochimica et Cosmochimica Acta, Geology, Rapid Communications in Mass Spectrometry, Chemical Geology, Communications earth & environment

Service

Geological Society of America Karst Division – Treasurer
Karst Water Institute – Board Member

Panelist

National Science Foundation Reviewer: CAREER and GEO-EMBRACE **Sept 2024**
Submissions under the Directorate for Geosciences
National Cave and Karst Research Institute SEED Grant **Aug 2024**

Convening Sessions at Professional Meetings

At Geological Society of America Fall Meeting: Co-Convening T140. Karst Hydrology and Hydrogeology; T142. Frontiers in Karst Research; Chair for T141. Karst Sedimentary and Paleoclimate Records **2022-Present**

At American Geophysical Union Fall Meeting: Co-Convening PP01. South-East Asia and the Indo-Pacific: Past, Present, and Future Climate and Environment **2024**

At International Union for Quaternary Research: Co-Convening Understanding hydroclimate variability using records from speleothems, marine sediments, and data-model comparison approaches; Chair for Wildfire Through Time: Integrating Paleofire Records, Climate Models, and Ecosystem Dynamics **2027**

SISAL North America Regional Coordinator **2017-Present**

Work with members of the North America regional team, led by Prof. Jessica Oster, to organize, compile, and interpret existing published stalagmite records from North and Central America. SISAL is a PAGES funded initiative to increase interaction between researchers interested in paleoclimatology, karst, and stalagmites.

Workshops and Professional Development

Invited to participate in MIT-Boston College joint Nahanni NP Field Expedition
'Exploring sub-arctic cave systems in Canada for climate change' **July, 2025**
Invited to participate in MIT-Boston College joint Nahanni NP Field Expedition
(Declined due to Visa Timeline) **August, 2024**
Early Career Geoscience Faculty: Teaching, Research, and Managing Your Career,
Macalester College, Saint Paul, MN **Jun. 23-27, 2024**

Carbonate Critical Zone Florida Workshop (Gainesville, Florida)	April 4-6, 2022
SISAL 5 th Workshop Virtual Participant	Feb 28 – March 4, 2022
Carbonate Critical Zone Virtual Workshop	August, 2020
Introduction to Remote Sensing for Tribal Lands	October 6-29, 2020
HYSPLIT Workshop Participating Member (online)	June 22-25, 2020
SISAL 4 th Workshop Participant (Xi'an, China)	October 14-18, 2019
SISAL 3 rd Workshop Participant (Agadir, Morocco)	October 8-12, 2018
2 nd Summer School in Speleothem Sciences (Oxford, UK)	August 21-27, 2015

FIELD CAMPAIGNS

Year	Role	Location	Responsibilities
2022- Present	Primary Co-ordinator	Philippines	Field campaign working with collaborators in the Philippines to set up cave monitoring networks in three caves (3 National Parks) for monthly cave variable collection. Responsible for all logistics planning and scientific questioning.
2017-2020	Primary Co-ordinator	New Mexico	Set up and led bi-monthly to bi-weekly trips to Sitting Bull Falls for active cave, stream, rainfall monitoring. Responsible for all logistics planning and scientific questioning.
2017-2021	Primary Co-ordinator	Texas	Led monthly cave monitoring trips to Inner Space Caverns, Westcave, Natural Bridge Caverns, Cave Without A Name for cave monitoring. Trained undergraduate students for the same. Part of Dr. Banner's Central Texas cave monitoring expeditions.
Spring 2018	Graduate Field Assistant	Central Texas	Karst Hydrogeology field course that involved setting up LTC loggers, ISCO deployments, charcoal dye tracing, stream discharge measurements. PI: Dr. Marcus Gary

May-June 2016	Field Assistant	Northwestern Belize	Assisted with soil excavation pits in wetlands, sampling for radiocarbon and stable isotope analysis, tree IDs using DFW, water sampling, sieving anthropological sites to investigate Environmental Changes in the Maya Lowlands. PI: Dr. Tim Beach. CDT sediment traps redeployment and
November 2015	Graduate Field Assistant	Gulf of Mexico	maintenance on R/V Point Sur with PhD student Kaustubh Thirumulai. PI: Dr. Terry Quinn.

PRESS COVERAGE

2025	An Underground History of Climate Change Occidental Magazine Spring 2025
2024	Institute at Brown for Environment and Society: 10 Voss Postdoc Spotlight NPR's The Academic Minute with Rachael Warecki, Director of Communications at Occidental College Sekhon N , et al., Tracking Hydroclimate Extremes from Deep In The Tropics; Past Global Changes Horizon, 3, 13-19, 2024 Magazine July 2024, doi.org/10.22498/pages.horiz.3.13
2023	Natural History Museum Abu Dhabi Climate Change Exhibition (opening in 2025), filmed exhibition segment at Brown University (September 2023) Guest post: Pal(a)eoPERCS. EGU Blogs, Biogeosciences Division (https://blogs.egu.eu/divisions/bg/2023/03/28/guest-post-palaeopercs/) PAGES ECN North America : Show and Tell with Dr. Natasha Sekhon and graduate student, Riley Havel
2022	A global palaeo-science community: an interview with Pal(a)eoPERCS. <i>Commun Biol</i> 5, 978 (https://doi.org/10.1038/s42003-022-03936-2) High Country Magazine September Issue for collaborative project in Utah, Idaho, Wyoming Institute at Brown for Environment and Society Bi-Monthly Feature Article
2017-2022	National Cave and Karst Research Institute Magazine, USA

Professional Societies

Geological Society of America | American Geophysical Union | European Geosciences Union | National Speleological Society | Past Global ChangeS (PAGES)

SKILLS

Communication: public speaking, writing articles for general audiences, radio/disc jockey for UCI and UT Austin Radio Shows, radio interviews at ACL and SXSW with musicians (eg. Jose Gonzalez, Of Monsters and Men)

Computer: Python (Proficient), Adobe Creative Suite (Illustrator, InDesign, Photoshop) (Proficient), MySQL Workbench (Intermediate), LaTeX (Intermediate), Matlab (Intermediate), ImageJ (Intermediate), ArcGIS (Beginner)

Laboratory: Drilling carbonates (paleosols, stalagmites, corals, forams) using a dental drill, Dremel, and New Wave micromill and CNC mill setup, preparing, analyzing, and reducing data of carbonate samples for traditional stable isotopes using an IRMS (MAT253, Delta Thermo V) attached to a KIEL III, IV, Gas Bench, water sample analyses using an IRMS attached to a continuous flow Gas Bench ($d^{18}O$) and TCEA (dD), sample preparation and analyzes of waters for L2130 Picarro Cavity Ring Down Spectrometer, sample preparation for organic carbon $d^{13}C$ and $d^{15}N$ using an EA attached to an IRMS, water sample preparation (diluting and pipetting) for solution mode ICPMS with a Quadruple sample introduction for trace element concentrations, stalagmite sample preparation, analysis and data reduction (LA-tools package for Python) for LA-ICP-MS analysis of trace element concentrations, preparation of modern cave calcite growth analysis for traditional isotopes and trace element analysis, Confocal Fluorescent Laser Microscope and XRCT imaging of stalagmite sections/cores, XRD analysis, U-Series column chemistry.

Field: ISCO and LTC deployments in surface waters, cave-air monitoring for CO_2 , temperature, relative humidity variability, cave dripwater monitoring set up to collect dripwaters, calculate drip rate to quantify epikarst processes, Ultrameter II for water temperature, pH, TDS, conductivity measurements, modern cave calcite plate deployments to measure modern cave precipitation variability, proficient in surface and cave water and soil sampling, hand held coring equipment to extract stalagmite cores, belay and SRT certified, REI First Aid Training, LAFD's CERT Training Certificates

Languages: English (Native, C2), Hindi (C2), Punjabi (C2), French (Working or Conversational, B2), Spanish (B2), Turkish (Beginner, A1)
